LECTURE.

No one who wants to be *thoroughly* pleased will fail of being at *Aquidneck Hall*, this evening, at *half past seven*, to hear Mr. Arthur Gilman discourse upon New England Humor.

Let those laugh now that never laughed before, and those who always laugh now laugh the more.

We would call attention to the advertisement of the Musical Institute of this city, for a public Concert, at *Aquidneck Hall*, on Friday evening.

The proceeds of the Concert are to be given to the poor: a very laudable appropriation, and one which any philanthropic citizen will naturally desire to augment as much as possible.

That the lovers of good music will be treated to something rich, will not be doubted by any who know the amount of musical talent represented in the Society, and the fine musical taste of the gentlemen who has conducted its rehearsals—Mr. Tourje.

TEMPERANCE LEGISLATION IN NEW YORK.—The Majority of the committee on temperance in the New York House of Representatives, have reported a bill which comprises many of the provisions of the old *honest law*. Its principle feature is the creation of an entirely new board of license commissioners. The license fees are fixed at \$30 to \$100. The sale of intoxicating liquors is prohibited to minors, under eighteen years of age, and persons intoxicating in public streets or places. Persons furnishing liquor to intoxicated persons are to be fined \$10, and adulteration is punished by a penalty of \$50. The husband and wife, on proof of habitual intoxication, may serve notice on tavern keepers not to furnish liquor to either for six months.

Lewis Flint, about fifteen years old, son of Mr. John Flint of Concord, left his home about a week ago, and has since been seen in Lexington, Bedford, Walpole and Boston. His father is very anxious to have him return, and this notice is designed as a kind request for him to do so. Any person who may meet him will confer a great obligation upon his parents by forwarding him on his way home, where he will be kindly received, and all expenses will be cheerfully paid. His father hopes that if he is not disposed to return, he will write immediately, and give information of his residence and circumstances. Our contemporaries of the press will confer a favor upon a distressed family by giving a place to this paragraph.

STRANGE CASE OF ILLNESS.—The recent sickness of J. Glancy Jones is attributed to the fact that one of the founders in the National Hotel at Washington attempted to kill him by administering arsenic. The rats, after swallowing the poison, ran to the water tank of the hotel, plunged in, burst, and died. From this tank the hotel is supplied with water for drinking, and cooking purposes. Mr. Jones has been very sick since that time, and is said to be in a critical condition. Mr. Buchanan and others were somewhat affected.

FEROUCIOUS ATTEMPT AT MURDER.—J. Parker, a butcher of Somersetshire, believed his wife unfaithful, and assaulted her with a cleaver, with which he several times struck her. He was seized, but sprung away and attempted to stab her, and the knife being taken away, he again escaped and struck her with the cleaver again. Her head is literally covered with gashes and wounds, and one of her hands nearly severed in two. The perpetrator of this horrid deed walked very composedly to the station with the police, to whom he expressed his regret that he had not also killed his eldest and youngest children.

FATAL ACCIDENT.—Friday morning, three men, named Sullivan, Hickey, and St. Annie, while clearing the ice from the railway leading to the turning wheel of the Aulne Mill, in Lawrence, were precipitated into the canal by the breaking of the plough upon which they were standing. These were borne by the water into the wheel, from which he was taken dead. The other two are not expected to live, having been to the water sometime before it was possible to extricate them.

REPUBLICAN STATE NOMINATIONS.

Italine Song of 1840.

They shall not have it—never—
The free, the German Rhine,
Though after it forever
Like hungry hawks they pine.

While proud it sweeps and flashes
Beneath its green-clad shore,
While in its wave there dashes
One solitary ore.

They shall not have it—never—
The free—the German Rhine,
While yields the brave old river
His noble fiery shrine;

While rocks and ruins hoary
Are mirrored in the stream,
And castles fane in story
Far down its waters gleam.

They shall not have it—never—
The free—the German Rhine,
While youth—none fairer, braver,
Ran love beneath the vine;

While yet one fin shall quiver
And flash and dart along,
While to the noble river
One minstrel breathes his song.

They shall not have it—never—
The free—the German Rhine,
Till in its depth forever
The last man's bones shall shine.

Foreign Intelligence.

FRANCE.—The Emperor Napoleon is extremely anxious about the high and continually increasing price of the necessities of life in all the southern markets of France and more especially at Toulouse and the neighbourhood; and he has consequently sent M. Fould, the Minister of the State, into the south and to collect information and to make suggestions for a remedy.

All the reports from the Spanish authorities on the Bayonne coast, such as Seuta, el Penon, and Melilla, speak of a widely extended plan and preparation by France for attacking Morocco at some future period, establishing even now a base of operations for that purpose whenever the favorable opportunity may arrive, either in a military point of view in Africa or political one in Europe.

The Moniteur announces that on Monday the 16th inst., the Emperor will open the session of the Legislative Chambers in person.

AUSTRIAN ITALY.—It is now said that the Emperor and Empress of Italy are to prolong their stay in Milan to the 5th of March or thereabouts. He has pardoned a large additional number of political prisoners.

The Paris correspondent of the Morning Post has learnt from good authority that the Emperor of Austria has decided on granting a general and unconditional amnesty to all political offenders in the Austrian Empire. As this measure will apply to Austrian Poland, it is said that the Emperor of Russia will do the same towards his exiled Polish subjects. The relations between Austria and Russia (says the same writer) are in a thing, but improving. The same may be said of Austria and France.

NAPLES.—The King of Naples remains shut up at Caserta. The people are gloomily silent. The police form the only visible executive government. There are rumors, but their source is not traceable, of serious tumults in Sicily.

The Paris correspondent of the Morning Post has learnt from good authority that the Emperor of Austria has decided on granting a general and unconditional amnesty to all political offenders in the Austrian Empire. As this measure will apply to Austrian Poland, it is said that the Emperor of Russia will do the same towards his exiled Polish subjects. The relations between Austria and Russia (says the same writer) are in a thing, but improving. The same may be said of Austria and France.

NAPLES.—The King of Naples remains shut up at Caserta. The people are gloomily silent. The police form the only visible executive government. There are rumors, but their source is not traceable, of serious tumults in Sicily.

A NARROW ESCAPE.—A few evenings ago a gentleman called at a drug store to procure some medicine, stating to the clerk that he had already taken two or three doses which had not proved any service to him. The clerk recommended him to take a bottle of nitrate of magnesia, when the gentleman remarked that he had one at home and believed he would try it. On reaching his room he found the bottle and observed that it had more sediment than usual, but thinking it all right he divided the contents with his room-mate, who was also complaining, and they took a dose. Very soon afterwards, however, they were both taken with a violent vomiting, which lasted for some time, but eventually produced a beneficial result. On inquiring into the cause of this remarkable action of the medicine, it was ascertained that a servant girl had dissolved a quantity of sugar of lead in the bottle for the purpose of bathing her heels, which were suffering from chilblains, and this poisonous mixture had been taken in such a large doses by both gentlemen that it acted upon them as an emetic, and in this way they not only escaped with their lives, but derived a benefit from the medicine. It was a narrow escape and a pretty fair case of what may be termed a heroic practice.—*Norfolk (Va.) Herald.*

THE NEGOTIATION ON THE TARIFF BILL.—New York, March 2.—The Washington correspondent of the Tribune, under date of midnight, 1st, says the committee of conference have adjourned to meet at 9 o'clock in the morning. The whole sitting resulted in nothing positive. The House bill will in no event be accepted by the Senate. The House members are willing to concede the reduction proposed by the Senate on brandies, wines and spirits from 140 per cent. schedule to 30 and the Senate members are willing to enlarge the free list so as to substantially adopt the House proposition, including the admission of raw wool free above the value of 20 cents at ports of exportation. The turning point in the controversy is on iron, the Senate side insisting that it shall share the fate of sugar, woolen, cotton and silk manufactures, and the House side resisting.

HOOSAC TUNNEL.—Six hundred feet in advance has been made into the rock on the east side of the mountain and more than seventy feet on the Greenfield side. The point will soon be reached when instalments of the \$200,000 ton from the State begin.

A donation of \$13,000 has just been made to the Iowa College by Mr. Charles Hendrie, for establishing and endowing a school on the basis of the Lawrence Scientific School of Harvard University.

FALL RIVER.—N. B. BOONE (Republican) is elected Mayor of Fall River over Mr. Buffington (American), the present incumbent.

FIVE persons sentenced to the Michigan penitentiary for life for murder, escaped on Tuesday last. Among them were Frederick H. Lee, condemned for the murder of the "Lima Lube," and Leatham alias Galvin, who was convicted some years since of poisoning his wife.

XXXIV CONGRESS—Second Session.

WASHINGTON, Tuesday, March 3.

Senate.

The Senate passed the fortification bill, the bill for the construction of a penitentiary in Nebraska and one in Kansas, and the navy appropriation bill.

Mr. Weller presented a communication from the Vice President elect, accepting the office and promising to try and fulfil its duties.

House of Representatives.

The House concurred in the Senate's amendment to the bill providing for a monthly, semi-monthly, weekly or semi-weekly letter mail from Mississippi to San Francisco.

Washington, March 3.—Mr. Breckinridge arrived here this morning. He visited the House, and was surrounded by crowds of his friends.

The New England and Pennsylvania appointments to the Cabinet have not yet been definitely settled.

The Senate has agreed to the House amendments to the Minnesota Land Bill, giving 200,000 acres of land to Alabama for railroad purposes. The bill avoids nearly altogether the range of lands proposed in the bill heretofore repealed by Congress.—Minnesota is to have the entire disposal of them. This is the Minnesota bill perfected by the House committee on public lands, and in connection with which subject corruption was alleged.

The Judges of the Supreme Court waited on Mr. Buchanan to-day at his rooms at the National Hotel.

President Pierce gave a reception at noon to a committee of city authorities and many citizens. A complimentary address was made by Mayor Magruder, to which the President replied in suitable terms.

WASHINGTON ITEMS.—Washington, March 1.—[Correspondence of the New York Herald.]—A treaty is now pending in the Senate, recently negotiated by Mr. Spence, our Minister at Constantinople, and the Persian Minister to the Porte.—The treaty is simply of a commercial nature, but in this respect it is a very important one.—It will not be acted on until after the 4th of March.

An attempt will be made to-morrow on the part of the House Naval Committee to get up the ten steam sloop bill, and put it on its passage, just as it came from the Senate.

Washington, Sunday Night.—[Correspondence of the Courier and Enquirer.]—President Pierce will not communicate the Mexican treaty to Congress, but Mr. Buchanan will probably seal it in a modified form.

Judge Leconte's supporters are taking up the session against Harrison, but his opponents will insist on Mr. Buchanan's renewing the nomination.

The committee of conference are entirely friendly to the Senate Tariff bill, and it will probably pass both houses.

FRANC AND MEXICAN AFFAIRS.—Washington, March 2.—M. Sartiges, French Minister, having received authority by the last steamer, to conclude a new postal convention, with modifications proposed by Postmaster General Campbell, a draft of such treaty has been completed, and will be signed to-morrow. It consists of seventeen articles, and takes effect from the first of April. The following offices are designated for exchange correspondence between the countries, viz.: On French side—Havre, and travelling office from Paris to Calais; On American side—New York, Boston, Philadelphia and San Francisco.

The postage on letters to France will be fifteen cents per quarter ounce, and double every additional quarter ounce or fraction. Prepayment optional. The postage on letters to other countries with which France has postal connection, is to be the same as rates charged to France.

The Mexican Minister had an interview with Mr. Mayne this morning, to urge the adoption of Forsyth's treaty so far as to submit it to the Senate, but without effect.

PENNSYLVANIA DEMOCRATIC STATE CONVENTION.—Harrisburg, March 1.—The following is the ballot at the Democratic State Convention: For Governor—Packer 44; Black, 49; White, 40; Hopkins, 10. Adjourned till 7 J. 2 p. m.

On the 24th ballot for candidate for Governor, Packer received a majority of three votes, and subsequently his nomination was made unanimous.

NEW YORK, March 2.

One of the heaviest storms of the season raged during yesterday afternoon, through the night. A small quantity of snow has fallen, but sufficient to fill the air by the force of the gale. We hear of no disasters as yet.

NEW YORK, March 1.

Steamship Philadelphia, Gray, from Havana, 23d inst., has arrived. She brings no news of importance.

CHARLESTON, Feb. 28.

The steamer Isabel, from Havana, and Key West on the 26th inst., has arrived.

There is news of importance from Havana. The Sugar market was unchanged.

The Steamer Fashion arrived at Key West on the 25th inst., with Gen. Harney and suit on board. The United States steamer Corwin arrived on the 18th, from New York.

ATTEMPT TO BLOW UP A STORE.—New York, March 2.—An attempt was made at 8 o'clock last evening to blow up the store of Macy and Jenkins, 146 Fulton street, where a quantity of gunpowder exploded, bursting out the front and rear doors and windows of the lower story of the building, and scattering the splinters and fragments across Fulton street, to the great peril of persons in the vicinity. Fortunately no one was injured.

ATTEMPT TO BLOW UP A STORE.—New York, March 2.—An attempt was made at 8 o'clock last evening to blow up the store of Macy and Jenkins, 146 Fulton street, where a quantity of gunpowder exploded, bursting out the front and rear doors and windows of the lower story of the building, and scattering the splinters and fragments across Fulton street, to the great peril of persons in the vicinity. Fortunately no one was injured.

WASHINGTON, Feb. 28.

This morning a Virginia gentleman named David Heim, called at the Postum Office to demand from a clerk named D. C. Lee a retraction of a charge that Heim had picked up his pocket at the President's levee last evening. Lee declining, Heim shot Lee in the head with a stick, whereupon Lee shot him dead. He immediately surrendered to the police.

CHOCOLATE—Milk & Chocolate, &c.

A key belonging to a well known bank having been lost, the bank official sent the Irish city erier, to cry its loss, with a strict injunction not to betray what key it was. The faithful erier, having rung his bell with unusual force at the corner of the street, made known the loss as follows: "Lost between Mr. Putterson's and mine o'clock this morning, a large key; I'm not authorized to tell what key it was, cos' its the key to the bank!"

In Salem, Mass., on Sunday afternoon, Alfred J. Hoyt, aged seventeen, son of Mr. Eratus Hoyt, hanged himself in his father's barn, and was not discovered until he was dead. The lad bore a good character, and no cause could be assigned for the act.

INAUGURATION TURKEY.—A turkey weighing thirty-four pounds is to be sent from New York to the new President for his inauguration dinner.

AYER'S CHERRY PECTORAL, FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., Dec. 20, 1855.
Dr. J. O. ATHER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Inflammation, and the concomitant symptoms of a Cold, in your Children, is Ayer's Cherry Pectoral. In my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

Croup, Whooping Cough, Influenza. SPRINGFIELD, Ill., Feb. 7, 1855.

BROTHER ATHER: I will prescribe for you a remedy for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people. HENRY L. PARKS, Merchant.

A. H. MORTLEY, Esq., of Utica, N.Y., writes: "I have used your Pectoral myself and in my family ever since you invented it, and believe it is the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza. WESTFIELD, MASS., Feb. 4, 1855.

AMOS LEE, Esq., MONTEREY, Ia., writes: "I had a tedious Indigestion, which confined me in doors six weeks; took many medicines without relief; finally tried your Pectoral by the advice of our clergymen. The first dose relieved the aches in my throat and lungs; less than one hour the battle made my complexion well. You medicine is a great relief as well as the best we can buy, and we esteem you, Doctor, and your remedies as the purest friend."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption. Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Cherry Pectoral affords relief and comfort.

ASTOR HORN, NEW YORK CITY, March 5, 1855.

DOCTOR AYER: I feel it a duty and a pleasure to inform you what your Cherry Pectoral has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, which had not only tried every nerve, but had even reached the point where we could procure her much relief. She was entirely failing, and the physician of this city, whom we have consulted for advice, recommended a trial of your medicine. We miss his opinion, as we do your skill, for she has recovered from this day. She is not yet so strong, as she used to be, but her cough, and calls herself well.

Yours with gratitude and regard, ORLANDO SHIPLEY, of SHIPLEYVILLE.

Consumptive, do not despair till you have tried Ayer's Cherry Pectoral. It is made by one of the best medical chemists in the world, and its effects are unequalled in its high merits of its virtues.—Philadelphia Ledger.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Immense proofs are given that these Pills have virtues which surpass in excellence the ordinary medicines, and that they will unprecedentedly meet the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disease, stimulate sluggish or disordered organs into their natural action, and impart health to the strength to the whole system. Not only do they cure the everyday complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cases have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of malice. Many eminent physicians and physicians have lent their names to certify to the public the reliability of my remedies, while others have set me the assurance of their conviction that my preparations contribute immensely to the relief of my ailed, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cure, of the following complaints:

Catarrh, Bilious Complaints, Rheumatism, Dropsey, Heartburn, Headache arising from a Rotten Stomach, Indigestion, Ulcers, Complaints of the Head and Brain, and Various Diseases which require an emetic Medicine. Scratches or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for Ayer's Pills, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

Price 25 Cts. per Box. Five Boxes for \$1.

SOLD BY HAZARD & CASWELL & R. J. TAYLOR.
